1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: Cancel non-elected claims 1-12 and 20-25.

It is noted that claims 1-12 and 20-25 were non-elected with traverse in the Office action of March 15, 2006. However, Applicant has not presented any arguments to traverse the restriction requirement. Thus, the election is being treated as being made without traverse.

2. The drawings filed on October 28, 2003 are acceptable.

3. The following is an examiner's statement of reasons for allowance: the claims are allowable because the prior art of record fails to disclose or teach the recited cryogenic refrigeration system having an oil separator for removing oil from the refrigerant and producing a refrigerant containing less than 1% by weight lubricating oil, and a fixed throttle device to provide during cooldown of the refrigerant from normal ambient temperature more than about 60% of the maximum refrigeration capacity of the system available during desired steady state operation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
